Public Comments

- Senator Gray wanted to bring attention to what is happening in the news/public that is not being discussed during these meetings
 - Workgroups are talking about issues but agree that it might be a good idea to add an agenda item so that the full council can discuss what is happening around the state.
- Commissioner Quinn noted that it will be important to continue to increase training, understanding, and importance of giving law enforcement tools to communication to issues, events, & individuals they come into contact with. There are a number of different services in different counties. Are we giving law enforcement and/or first responders the right training and tools to make sure they are making the right referrals at the right time?
